

One of the goals of the Little Rock City Beautiful Commission is to promote public interest in the general improvement of the appearance of the city of Little Rock. To this end, the City Beautiful Commission has recently established a program for recognizing homeowners who are contributing to the beautification of Little Rock. In doing so, the Commission seeks to encourage others to do their part in creating a more pleasing environment for our community.

The public is invited to submit nominations for recognition by the Little Rock City Beautiful Commission. Homeowners selected will receive a certificate of appreciation.

To be considered, the site should:

Display an exceptionally colorful landscape visible to the public, ideally including a profusion of annuals and perennials

If you would like to nominate a site (or sites) please complete the following form and return to
